Title: Swinburne Residences 4 Bedroom Apartment Tour

Creator: Swinburne Student Residences

Audio/video for this transcript available from: https://youtu.be/jOA_yMDr6sE

MIA: Hey guys. My name is Mia and today I'm going to show you a standard four bedroom apartment.

Come in and have a look.

This is what a four-bedroom standard kitchen looks like. So, over here we have a microwave. It also comes with a toaster and a kettle. It also comes with obviously the stovetop that you see here. Fortunately our apartment comes with an oven. Not every apartment does at this stage. Also it comes with this massive fridge that has great freezer storage.

All the storage that you can see here is all that the kitchen comes with. However our apartment, we wanted to add a little bit more so we have this storage compartment for our food here which is really good and really cheap.

So this is our living / eating space. So as you can see it comes with all the furniture that you can see, we haven't added anything into this space. You get a heater, a really nice big tv, a couch, the table, coffee table etc. The only thing we've added is the lamp in the corner there. And of course you can decorate it to how you please to make it feel a bit more homely and inviting. This is just an example of what we've done.

So we just have a quick look at our balcony. So this is what our balcony looks like every balcony in this building looks the same. You often share with one other apartment as well. As you can see we have a really great view of the city here. We're very lucky. And we have been doing some iso projects outside as you can see. We've been plotting some plants.

So we're gonna have a quick look inside my room. So I live in a standard bedroom. We also as I mentioned earlier, have deluxe rooms. The difference is - so the standard rooms a little bit smaller. The deluxe room has a bigger desk space, a bit longer and a longer hallway at the end. So if you want to come in and have a quick squiz.

So as you can see this is the storage unit it comes with. So it comes with four generous drawers four shelves and plenty of space. You can see that it has a big massive desk with two chairs it already comes with, which is great. So I have bought my own fan for when it gets a bit hot, it doesn't come with one, but they're very cheap in Kmart etc.

As you can see I've decorated it to how I wish. So this is inspiration for you that's great. It also comes with a heater as we know about the weather is super cold sometimes. I added my own mirror in and lastly it comes with a big king single bed.

So this is one of our two bathrooms. It is just a normal bathroom so two people share each bathroom. As you can see it comes with a sink, a toilet and a shower. So this brown cabinet here is the storage you can see. Also comes with like a towel rack behind the door there. We wanted a little bit more storage in our bathroom so we just added one of these things again that you see in the kitchen.

So the biggest question everyone has is whom I might be living with in this upcoming year. Well it's really important to showcase yourself, your interests and your hobbies so we can pair you guys up with like-minded people.

If you have any concerns we have an amazing RA team here to support you, run events and activities for you guys to get to know each other.

If you have a preference or desire to live with one of your friends or somebody you know, write that in your application and get your friend to do the same. Same with your preference living with either males and females. You can write that as well and we'll match you up with a comfortable environment for you to live in.

Thanks everyone so much for coming along with me today on my tour

Hopefully this has given you a little bit of an insight to where you might preference to live next year. We cannot wait to see you all.

Bye.
